

THE SCHOOL

The *Agrarian High School IIS Luigi Castiglioni* is located in Limbiate, surrounded by the lushy greenery of the nearby *Groane Park* and partly hosted in the historical Napoleonic residence *Villa Crivelli*. The school has a deep connection with nature, resulting in a genuine interest for the environment and the practices of sustainable agriculture. Students and teachers are constantly involved in projects aimed at protecting and safeguarding the local flora and fauna.

The school also hosts the oonymous *agrarian company IIS Castiglioni* where students can gain confidence on field and put into practice what they have learned in class. They can try their hand at feeding and looking after donkeys, rabbits, ducks, roosters, sheep and lambs or practicing pruning or ploughing and seeding on our fields. Students are also involved in the maintainance of our tunnels and the garden “*Giardino dei Semplici*”, where flowers, spices and other plants are grown and sold to the local public.
